2017 Performance Report to Shareholders

2017 can best be described as a "goldilocks" year for financial markets as nearly everything went just about right. A mix of positive economic growth and low to moderate inflation allowed global central banks to maintain extraordinary loose monetary policies. This mix was good for bond investors as interest rates were stable and good for equity investors as the solid economic and liquidity backdrop provided a tailwind for earnings growth. This mix also supported returns overseas as foreign assets appreciated rapidly.

The S&P 500 gained 21.8% in 2017. Outside of large-cap U.S. companies, returns were not as strong as the Russell 3000 Index of small U.S. stocks gained 14.7%. Overseas, the MSCI Developed Market (EAFE) Index gained 24.7% and the MSCI Emerging Markets index rose 37.3%. U.S. bonds, as measured by the Barclays Intermediate Government / Credit Index, rose 2.1% on the year.

In 2017 the Fund returned 13.0% net of fees and expenses. Over the past three and five years, the Fund returned 7.6% and 10.1% annualized. For comparison, the DIF policy benchmark index returned 15% in 2017, 7.7% for the trailing three years, and 9.9% for the past 5 years.

The long-term strategic asset allocation targets are 5% cash, 30% bonds and 65% stocks. At the end of December 2017, the Fund held 6% in money market funds, 26.9% in bonds and 66.3 % in stocks. The Investment Policy for the DIF calls for rebalancing when the allocation deviates by more than 10% from the strategic target.

Within the stock portfolio the Committee continues to focus on companies with strong fundamentals, sound management, high and/or rising dividend yields, and attractive valuations. Recall that we achieve exposure to small and mid-cap U.S. stocks, foreign and emerging market stocks, and corporate bonds through low-cost mutual funds.

The DIF is managed by a team of seasoned investment professionals and business community leaders that generously volunteer their time, expertise and resources. We believe that a long-term perspective, focused on fundamentals and attention to valuations remain essential in building a sensible portfolio. The fund is a balanced and diversified portfolio with a long term investment horizon. The primary objective is growth; income is a secondary consideration.

The S&P 500 Index is a market capitalization-weighted index of 500 large, widely-held U.S. stocks. The S&P Midcap Index is a market capitalization-weighted index of 400 medium-sized, widely-held U.S. stocks. The Russell 2000 Index is a market capitalization-weighted index of 2000 small U.S. stocks. The MSCI EAFE Index is a market capitalization-weighted index of developed market stocks. The MSCI Emerging Markets Index is a market capitalization-weighted index of emerging market stocks. The Barclays Intermediate Aggregate Government/Credit Bond Index is a float-adjusted, diversified index of government and corporate bonds with intermediate term maturities.

Performance of the Diocese Investment Fund is presented net of fees and expenses. Returns include the reinvestment of dividends and interest. Investments are not guaranteed or insured. The performance data shows past performance and is not a guarantee of future results. Principal value and investment returns will fluctuate. This report uses information that is considered reliable, but it does not represent that the information is accurate or complete.

^{*} The Policy Index is 5% 90-day T-Bill; 30% Barclays Intermediate Aggregate Government/Credit Bond Index, 45.5% S&P 500 Index, 4.9% S&P Midcap Index, 4.9% Russell 2000 Index, 6.5% MSCI EAFE Index, 3.3% MSCI Emerging Markets Index.

The Purpose of the Diocesan Investment Fund

The Diocesan Investment Fund was organized in 1951 as a co-mingled fund for the endowment funds of the Diocese, its parishes, missions and related institutions. This approach allows small endowment funds to be pooled, thereby providing greater diversification and increased investment opportunity.

The primary objective of the Fund is to build share appreciation over time and to provide a return that significantly exceeds the level of inflation. Another very important objective of the Fund is to provide a high level of income for distribution to congregations and other shareholders to help meet their budgetary needs. The Fund is invested in a diversified portfolio of common stocks and fixed income securities. Since long term growth of principal is the primary objective, the allocation between stocks and bonds will generally favor stocks.

The primary motivation for investing in the Fund should be the desire to offset the constant erosion of the value of the dollar caused by inflation. The Fund will fluctuate in market value and the level of income produced from year to year. Over time, however, it is anticipated that the total investment return should be higher than the return produced by shorter term savings vehicles.

This Fund is suitable for investors with a five year or longer time horizon and who are willing to accept the possibility of negative returns in some years. The Investment Committee for the Fund will do its best to meet the objectives of the Fund. No guarantee can be given, however, that the objectives will be met.

Operation of the Fund

Shares may be purchased by the Diocese itself, by parishes of the Diocese, and by diocesan related institutions. No shares may be purchased by individuals or by organizations other than those listed. Because of its long-range objectives, the Fund does not encourage the purchase of shares unless they are to be held for two years or more.

The assets are valued on the last day of each month, and the per share valuation determined at that time.

Any parish or other organization wishing to purchase shares may do so by notifying the diocesan Treasurer's office by the end of the month. When the share value has been determined, the purchaser will be given evidence of the number of shares purchased the following month.

In the event that the owner of the shares wishes to sell all or part of them, the Treasurer's Office must be notified by the end of the month. A shareholder should give notice thirty days prior to the valuation date of intent to sell and the amount of money to be realized. When the valuation is determined, the shareholder will be advised of the number of shares to be redeemed and a check sent in payment.

A shareholder may elect to have dividends from earned income re-invested rather than distributed in cash. If so requested, the Fund will fully invest the dividend and issue evidence of additional shares. Further particulars may be obtained from the Comptroller in the diocesan Treasurer's Office.

Requests for purchases and sales of shares and for investment of dividends should be accompanied by a Vestry or Bishop's Committee resolution authorizing such action.

Dividends are distributed monthly. It is customary to distribute all of the earnings of the Fund to shareholders each month as earned.

Earned income only is distributed; capital gains are reinvested to increase the value of the Fund. A shareholder wishing to convert part or all of their capital gains to cash may do so by selling a portion of the shares owned.

The Fund Investment Committee makes no charge for its share in the management and supervision of the Fund. The only charges are those specifically applicable to the operation, such as the agency fee of US Bank, printing and postage expenses, Committee expense, the annual audit fee of our certified public accountants and \$5000 reimbursement to the operating budget. This permits passing on substantially all of the earnings of the Fund to the shareholders with a minimum of shrinkage for operational costs.

INDEPENDENT AUDITORS' REPORT

Diocesan Council
Diocese of Olympia, Inc.
The James F. Hodges Diocesan Investment Fund
Seattle, Washington

We have audited the accompanying financial statements of the Diocese of Olympia, Inc. – The James F. Hodges Diocesan Investment Fund ("the Fund"), which comprise the statements of assets and liabilities and schedules of investments as of December 31, 2017 and 2016, and the related statements of operations and changes in net assets for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Fund as of December 31, 2017 and 2016, and the results of its operations and changes in its net assets for the years then ended in accordance with accounting principles generally accepted in the United States.

NOTES TO FINANCIAL STATEMENTS

Note 1. Organization and Significant Accounting Policies

The Diocese of Olympia, Inc. ("the Diocese") is a Diocese of the Domestic and Foreign Missionary Society of the Protestant Episcopal Church in the United States of America ("the Episcopal Church"). The Diocese includes all Episcopal churches in Western Washington.

The James F. Hodges Diocesan Investment Fund ("the Fund") was organized in 1951 as an investment pool for the endowments of the Diocese and its parishes, missions, and related institutions. The Fund's current name was adopted in 1987.

The Fund's investment strategy is to balance the need for current income and growth in asset value to offset inflation by investing in a mixture of equity and debt securities. The securities are currently held by U.S. Bank. The Diocesan Investment Committee makes investment decisions. The funds are not federally insured.

The Diocese has funds other than the Fund, which are called the Operating Funds, Trust Funds, and the Building Loan, Mission Development, and Real Estate Funds. These funds are included in separate financial statements.

Financial Statement Presentation

The Fund follows the accounting policies of an investment pool, in accordance with accounting principles generally accepted in the United States. Securities are valued at fair value based on closing sales prices reported on recognized securities exchanges on the last business day of the year (see Note 2).

Securities transactions are accounted for on a trade-date basis. Realized gains and losses from securities transactions are reported on a specific identification basis. The Fund distributes net cash investment income to shareholders monthly, but net capital gains are reinvested. Shareholders may reinvest dividends, or purchase or redeem shares on a monthly basis only.

Requests for purchases are administered by the Diocese, which collects funds for purchases in the current month and then remits the funds to U.S. Bank in the subsequent month. Shares are purchased at the net asset value at the beginning of the month after U.S. Bank receives the funds. At December 31, 2017 and 2016, the Diocese held \$102,701 and \$11,495 in funds for purchase in January 2018 and 2017, respectively. These amounts are not included in the financial statements until shares are purchased. They are included in the financial statements of the Diocese.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Concentrations

Investments in the Vanguard short-term investment grade bond fund represent 10% of total investments at both December 31, 2017 and 2016.

Taxes

The Diocese is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. It is not required to file a federal tax return.

Reclassifications

Certain items from the December 31, 2016, financial statements have been reclassified to conform to the current presentation. These reclassifications had no impact on net assets or changes in net assets as previously reported.

Subsequent Events

The Fund has evaluated subsequent events through the date these financial statements were available to be issued, which was May 22, 2018.

Note 2. Fair Value Measurement

Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability.

The fair value of all investments was determined using Level 1 observable inputs (quoted prices in active markets for identical assets) within the fair value hierarchy using quoted market rates.

Note 3. Unrealized Appreciation (Depreciation)

Unrealized appreciation (depreciation) on investments was as follows at December 31, 2017:

	 Cost	 Fair Value	Δ	Unrealized Appreciation Depreciation)
Equity securities Bonds, notes, and other Cash equivalents	\$ 26,714,266 21,239,559 4,707,752	\$ 53,021,434 21,173,774 4,707,752	\$	26,307,168 (65,785)
	\$ 52,661,577	\$ 78,902,960	\$	26,241,383

Unrealized appreciation (depreciation) on investments was as follows at December 31, 2016:

	 Cost	Fair Value	Д	Unrealized oppreciation Depreciation)

Shares outstanding, December 31, 2017	289,927	\$	272

Note 5. Related Party Transaction

The Fund is charged approximately \$5,000 per year for the common expenses paid by the Diocese.

Note 6. Investment Policy – Tobacco Stocks

In accordance with the investment policy recommended by the Executive Council of the Episcopal Church, the Fund does not invest in securities issued by companies that manufacture and distribute tobacco products.
