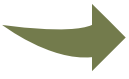
1. Right Place, Right Time

Set the right conditions for learning. Create an environment with no interruptions, no phone calls, and no distractions. Set aside 30-45 minutes for each course so you do not have to hurry.

2. Take Your Time

Have patience and take your time. Read carefully to make sure you fully understand the content. Rather than rushing through the training, plan to complete only one or two courses each time you login so you can really absorb what you've learned. If you need to pause and continue training later, the course will start again from the section where you left off.

3. Follow the Arrows



When it's time to move to the next page, an arrow will appear at the bottom right corner. When prompted, click the arrow to move forward.

4. Think About It

Finally, pause and think about what you are learning. Throughout the course, think about how you can apply what you are learning to your own position. We know that with proper concentration you can understand and apply what you learn. When you pass the quiz at the end of the course, you will earn credit.
